Ofsted Inspection Report April 2019

Dear Families

Please find enclosed the report from our recent re-inspection, carried out by HMI in April 2019. The inspection took place over two days and, as the report explains, included rigorous work scrutinies, observations and interviews with a range of stakeholders.

We are extremely pleased with the outcome of the report which verifies our internal judgements that Friezland School is a 'good' school in all areas. The report reflects the team's dedication, rigour and hard work over the last two and a half years, which has ensured our children have received the education that they deserve.

With every inspection, there are always next steps identified for a school which should support continued growth and sustainability. Many of the areas recommended for improvements by our inspector were identified through discussions with staff and had already been reflected in this year's School Development Plan (available on the school website) with actions currently in place to bring about further progress and improvements. The inspector agreed with leaders that there was evidence to show the areas identified were already being addressed; 'leaders have an accurate understanding of the school's strengths and the priorities for development'.

We would like to thank you for your continued support which was recognised through the Parent View surveys and texts. Through continued partnership working, we will ensure that Friezland Primary School remains a 'happy school' where pupils 'feel safe and are well cared for'. We are all proud of the school's progress since the last inspection and we will continue to work hard to fulfil our mission statement: 'A Family Committed to Making a Difference'.

Friezland staff and Governors.
