

Isolation period for household contacts

Day	Person 1	Person 2	Person 3	Person 4	Person 5	
1	I have started with symptoms today so I am going to isolate and get a test	The person I live with has started with symptoms so I am isolating	The person I live with has started with symptoms so I am isolating	The person I live with has started with symptoms so I am isolating	The person I live with has started with symptoms so I am isolating	
2	My test was positive so I am now isolating for 10 days	Because the person I live with tested positive, I am now isolating for 14 days from when their symptoms developed	Because the person I live with tested positive, I am now isolating for 14 days from when their symptoms developed	Because the person I live with tested positive, I am now isolating for 14 days from when their symptoms developed	Because the person I live with tested positive, I am now isolating for 14 days from when their symptoms developed	
3		But on day 3, I started with symptoms (I am getting a test). My test was positive so I am now isolating for 10 days				
4					But on day 4, I started not to feel very well, so I got a test	
5						My test was negative, but I still need to isolate for the 14 days because the person I live with tested positive
